ANNUAL REPORT FOR THE YEAR 1949-50

VICE-CHANCELLOR'S OBSERVATIONS

The year under review completes the first triennium of our University The work done during the period and the measure of progress achieved, will be clear to members from the general picture of the present position of the University as set forth by the Registrar in a later section

THE UNIVERSITY ACT

1 In these observations last year a reference was made to the labours of the Committee appointed by Government to recommend changes in the University Act that were necessitated by integration or dictated by experience The report of that Committee together with the considered views of the University thereon, was reviewed by Government and they decided ultimately to amend the Act in respect of its various sections as now published in the Rajasthan Gazette Extraordinary of the 30th September 1950 As the present report is being submitted to the Senate almost on the eve of the reconstitution of the Authorities of the University under the Amended Act, I propose to stress here some features, of the original legislation and those of the present Amendment

2 The statement in the previous report bears repetition that our Pro-Chancellor (as he then was), Sir V T Krishnamachari, gave us in the original constitution

of the University a frame-work which is strong and resilent to adapt itself to the impacts of a changing environment

For example—

(a) The framework of the Act, first promulgated on the 8th January 1947, facilitated the voluntary accession of all the States of Rajputana to the University scheme This must be considered remarkable, if we remember that the States were completely free and independent to decide their policy and there was no States Ministry then to render them any directional advice

(b) The Act itself decided the question of the University Headquarters and removed it from the sphere of controversy by explicitly providing in a Section that the Seat will be at Jaipur Each acceding State agreed to this when it promulgated the Act in its area

(c) Thirdly, by creating a separate Board of High School Education *under the authority* of the University, the Act achieved two objectives It made the University responsible for the overall control of the School Leaving Examination and it ensured at the same time that the consideration of questions affecting this pivotal test would not be dominated by factors special only to the higher education in Colleges This is borne out by the fact that contrary to what happened elsewhere in the Country (to wit, in Bombay) the University has been able to change the High School Examination scheme And with effect from 1951 July, the matriculation course will

lead to a *multipurpose* examination so as to accommodate candidates of varying aptitudes and divergent aims in life

(d) Fourthly, "the right to cause an inspection to be made of the University, its buildings and equipment and to cause an enquiry to be made in like manner in respect of any matter connected with the University" was vested in th Chancellor and *not in the Government*

3 Now, what is the significance of the present Amendment? First, it does *not* do certain things It does *not*, for example, disturb the features of the main Act as mentioned above This fact will have a great bearing on our properly assessing the Amendment, if I mention here—

(a) that elsewhere Universities have been deprived of the control and conduct of the School Leaving-examination,

and (b) that the Acts of most of the regional Universities recently started in the Country vest "the right to cause inspection of the University" in the State (Provincial) Government as well as in the Chancellor

Secondly, the innovations introduced can be best summed up under three headings—

(i) Structural changes

(ii) Procedural changes,

and (iii) enlargement of the field of service by the University

(i) Structural changes

The Board of High School Education has been raised to the status of an Authority of the University With the Senate at the base, and the Syndicate as the apex, we have now two bodies between these—the Academic Council to deal with collegiate questions and the Board of High School Education to look after the schools This diamond of four authorities forms a strong, stable structure for the University The Research Board the Publication Board, the Board of extra-mural studies etc , though by no means less important, will only be supported by this basic diamond

Next, the composition of most of the Authorities has been altered on the lines recommended by the University Commission Their reduced size and the manner of constituting them will make for efficiency and economy

We might also note under this heading that the former 'hierarchy' of Chancellor —Pro-Chancellor —Vice-Chancellor is now replaced by that of Visitor—Patron—Chancellor —Vice-Chancellor The justification is self-evident

(ii) Procedural changes

(a) The procedure laid down for the appointment of Vice-Chancellor marks an improvement on that recommended by the University Commission Not only does it eliminate election at the Senate level, it removes even the possibility of canvassing the Syndicate members Further, six years period is prescribed as the maximum tenure for a Vice-Chancellor without tying the University to accept this maximum It is possible to have a change at the end of the first tenure of three years This Principal administrative officer is made indepen-

dent of any party groups by eliminating election and he is rendered free from Government influence by the provision that the conditions of his service shall be invariable

(b) The appointment of the Deans is left in the hands of the Vice-Chancellor but definite categories based on academic qulification, status and experience are prescribed from which he can make the choise It is conceded that a teacher of real competence and ability outside the prescribed categories is now ruled out

(c) The principles enunciated for making the appointment of examiners and inspectors are unassailable It is feared, however, that owing to paucity of the personnel practical difficulties will arise in giving effect to them I share these fears but I hope a way will be found to overcome the difficulties

(iii) Field of service enlarged

The power given to the University to make due provision for external students i e those who cannot for valid reasons join colleges as regūlar candidates—will, it is hoped, relieve the pressure on affiliated colleges The provision again, enabling the University to admit to its privileges, so far as may be practicable "approved" institutions will extend the field of service the University can render to groups of people outside its campus

4 I am expected to be in a position to state what considerations weighed with the Act amendment Committee when they recommended that the University might be empowered to constitute a separate Faculty of Women's Education Differences of opinion exist in this area as

elsewhere with regard to the content of women's education And we (members of the committee) had before us at least one instance of an independent effort for women's education which does not run on lines concurrent with the usual lines followed by Universities To bring such efforts to fruition one Province (Bombay) has got a separate University for Women, but short of that step, the Committee felt it is possible for this University to cover such independent efforts by instituting a separate Women's Faculty Even with our co-educational affiliated Colleges of the Universities, a number of problems arise which for the most part concern women and these can be usefully dealt with by a separate Women's Faculty This is a new idea and has to be worked out It is not claimed that a Women's Faculty has identical functions as an Arts Faculty or a Science Faculty

5 The two tests which are commonly used to judge the soundness of a University Act are

(i) to see whether it preserves the autonomy of the University

and (ii) to examine whether in the composition of its various Authorities the non-academic element is kept at the bare minimum

(i) To take the latter point first, the facts are as follows In the Senate of some 75 members not less than 50 will be academicians and not more than 20 can be non-academic In the Academic Council of some 45, all members will be academic In the Board of High School Education whose strength is 23, not more than seven can be non academic And in the Syndicate of

fifteen, the number of non academic persons will be at worst seven, but normally much less As a matter of interest, I may refer here to a view, held in some quarters, that the non-academic element—(the phrase used is 'men of affairs')—should outbalance the academic element in the executive of a University And the present Act of the Bombay University does provide for a statutory majority of the non-academic persons in the Syndicate Happily our picture is different

(ii) Independence of the University from governmental interference is now an established "value" and accepted by all The question to be asked is whether the present Act infringes it I am satisfied that the Act maintains this 'value' intact, and I shall cite only four factors in support of this view First, the procedure laid down for the appointment of the Vice-Chancellor is such that no government can manoeuvre the appointment of a person of their choice to this principal administrative post Secondly, the Act makes a distinction between nominations by the Government and nominations by the Chancellor The Chancellor, obviously free to take his own decisions, will normally rely on the Vice-Chancellor for suggestions There are no Government nominations to the executive body, the Syndicate Government nominations are provided for, only in the Senate But there, the nine nominees together with the six ex-officio members can hardly be feared to unduly interfere in the deliberations of a body w

strength is over seventy The probability is that they will rather function as *liaison* members between the University and the Government Thirdly, as already mentioned, the right of 'inspection of the University' is vested in the Chancellor only and not also in the Government And fourthly, so far as we are concerned the University has already received the assurance on behalf of the present Government that its autonomy will be respected. "In the course of his (the Education Minister's) speech he observed that the two departments of which the independence has to be maintained are the Judiciary and the University The background of the independence of the Judiciary also rested on our teachers and students, and the independence of these elements could come only when the University was independent of the executive He therefore assured the House that he would do his best during his regime as Education Minister to maintain the autonomy of the University—" [Minutes of the syndicate meeting on 2 May 1949]

6 The foregoing considerations apart, the correct position to my mind is that the Government and the University have a partnership in common for the service of the people Men of vision and understanding will always discover that the area of joint collaboration is so great that the paths of the two partners need not cross each other

7 In an objective analysis of the present Amendment, as attempted here, it is necessary to point out to the Government that some of the vital suggestions of the University have not been incorporated into this piece of legislation Further, in my personal opinion, since the Board of High School Education is to have the same

importance in respect of school questions as the Academic Council for collegiate problems, representation to the extent of at least one seat on the Syndicate should be accorded to Heads of institutions having High School classes, from amongst the members of the Board Be that as it may, we are now charged with the duty "to see that this Act, the Statutes and the Ordinances are faithfully observed" — and necessary powers will be available to overcome difficulties that may present themselves There is also the consideration — even a cursory glance at *Hansard* confirms it — that legislation is a continuous process There can be no last word in respect of an Act dealing with the needs of a nascent institution

OUR IMMEDIATE PROBLEMS

8 With the formation of the next University Authorities in the offing, I should like to list here, if briefly, the questions that will engage their attention during their tenure

(i) It is necessary to have our own University buildings, —an administrative block, a Senate hall, a library, a postgraduate block and quarters for the teaching and administrative staff Obviously priorities must be fixed but an early start has to be made

(ii) Of the three post-graduate departments of the University, only the Economics department has been provided for permanently In the case of the department of Geology and Indian Philosophy, the donors have committed themselves to give financial contribution only for five years Permanent arrangements have to be made by appealing to these very donors

(iii) The area of postgraduate instruction under the direct conduct and control of the University should be enlarged by suitable arrangements with the Government

(iv) A serious threat to high academic standards generally arises from an overcrowding in the educational institutions And in this connection we have to watch rather carefully the conduct of the high-school-leaving examination Not that the results are to be strict or that the number of successful candidates predetermined by the number of vacancies of admission to colleges,— but we must ensure that the examination really serves as a *multipurpose* test, and canalizes students of differing aptitudes in proper directions Government on their part have to create and provide diverse fields to absorb the successful students

Another way to relieve the pressure on existing Colleges is to encourage the Governing bodies of Intermediate Colleges to raise them to the Degree level Meagre finance and non-availability of well-qualified teachers are no doubt difficulties in the way But to my mind, over-crowding in institutions is a much greater evil than even a slight lowering in the academic qualifications of teachers

(v) What is called 'the language problem' is comparatively of easy solution in this area, since the federal language is more or less the same as that of the region The process of making a change-over from English to Hindi as the language of instruction and examination has made some progress in this University We started by extending the option of using Hindi for answering

question-papers and by July 1951, we shall have covered the first degree examinations in Arts and Commerce subjects There need be no surprise if I state that the numbers of students availing themselves of this option are yet small But during the next stage, short of compulsion, every attempt should be made to persuade students to use Hindi for answering their papers This implies of course that (a) text-books in Hindi are made available and (b) teachers take special pains to expound the subject-matter in Hindi, may be in addition to their teaching in English It is not contemplated to touch the professional and Science subjects, and at least during this, the second stage of the process, there will be unanimity on this point

SALARIES OF TEACHERS

9 The solution of most of the above and kindred problems depends upon our securing and retaining the right kind of teachers—both for Colleges and Schools And I cannot close these observations without saying a word about the position of teachers as a class 'Respect for the teacher', like 'respect for the parents' was a 'value' recognised by the ancients long before that of even 'respect for the rule of law' For it is the parents and the teacher who, by their training of the young, ensure the permanence of the other 'values' of civilized existence "The right kind of teacher is one who possesses a vivid awareness of his mission He not only loves his subject, but loves those whom he teaches His success will be measured not in terms of percentage of passes alone, nor even by the quality of original contributions to knowledge—important as they are but equally through the quality of life and character of men

and women whom he has taught —(University Commission) But if this vision is to be realized in our institutions the Society and the State must both see that all the burden of sacrifice is not laid on the shoulders of the teacher We were reminded by a critic recently that—

> 'Probably nowhere in the world are teachers paid as well as they deserve or would deserve had not persistently low salaries already affected the quality of the profession Even in U S A according to a recent writer the school system threatens to break down because we cannot pay teachers a decent wage

Now this may be perfectly true But the scale of assessing a decent wage is not the same in America as here The lowest salary of a school teacher in America secures for him more conveniences and amenities of life than what most of our College teachers can hope to afford

I have already allowed the claim that the present Amendment of the University Act has been informed with the spirit of the University Commission's recommendations *But* the important parts of those recommendations are inseparable and must hang together One can understand a little time lag in the implementation of all the measures suggested by the Commission But *Government has long been in possession* of the views of the University in respect of the salaries to teachers of College and High School classes Now that the Commission's authoritative pronouncement is available —and there is little difference in the approach and views of this University and the Commission Government should lose no time in adopting them

Post-Script -

I have much pleasure in stating that the Hon'ble Minister for Education informs me that the Government have, in their process of integration, taken one step by fixing the scales of pay of teachers in degree colleges The picture will be soon completed by taking appropriate decisions in respect of teachers in intermediate colleges and those in charge of the high school classes I hope Government will take into consideration

(a) the recommendations of the University in regard to high school teachers and

(b) the fact that there is no differentiation, on academic considerations, in the instruction of intermediate classes whether they form a part of degree classes or of intermediate colleges

ANNUAL REPORT FOR THE YEAR 1949-50

SECTION I

REPORT OF THE DEANS OF FACULTIES

FACULTY OF ARTS

The annual meeting of the Faculty of Arts was held on November 17 1949 In the absence of Professor R K Shukla Dean of the Faculty, Dr M L Sharma, Principal, Maharaja's College, Jaipur, was unanimously voted to the chair

The Faculty considered the recommendations of the Committee of Studies in various subjects held in April 1949, in respect of courses for the examinations of 1952, for adoption by the Academic Council and the Syndicate Certain modifications in respect of the scheme of examination in Political Science for the M A and in Physiology, Hygiene and Child Study for the Inter Exams were made An alternative group 'Dharma Shastra' for the M A Examination in Sanskrit was also added to the Scheme

The option already given in certain subjects for answering question papers in Hindi at the Intermediate stage has been extended to the B A examination to be held in March, 1951 So far the degree in Education (B Ed) was included in this Faculty, but Ordinances for having a separate Faculty of Education have been framed and approved by the Syndicate

The University Department in Economics, which had commenced functioning last year and was conducting research work only, has been further expanded this year by adding also Post graduate teaching in Economics At present only the M A Previous class has been started from the Session 1950-51 With a view to cope with the work, two more teachers Dr M C Mathur, Professor, Maharaja's College, Jaipur, as Part time Reader and Dr D L Gupta, as a whole-time Lecturer have been appointed

The University Department in Philosophy has also come into existence and located at Jodhpur Dr P T Raju who had been to U S A as Visiting Professor of Philosophy has taken over charge as Professor Dr Raju has already commenced organising the Department and 3 research scholars are working under him for the Ph D Degree of the University, out of whom two have been awarded a research scholarship of Rs 125- P M each

The total number of colleges affiliated to the University in subjects of Arts so far is 26 including 16 Intermediate Colleges and 10 Degree Colleges, 7 of which teach up to the Post graduate standard During the year under report, affiliations were granted in additional subjects to a Post graduate College and an Inter College, and to two new Intermediate Colleges

The following statement shows the number of students who appeared for the various examinations of the Faculty in the years 1949 and 1950 This indicates that there has been an increase of about 27% in the number of students during the year under review

	1948-49	1949-50
Intermediate Arts	1379	1596
B A	583	834

M A (Previous)	191	255
M A (Final)	97	181
Total	2250	2866

32 candidates applied during the year for registration as Ph D scholars, of whom 21 were granted permission to supplicate for the degree

M L SHARMA
For Dean Faculty of Arts

FACULTY OF SCIENCE

The annual meeting of the Faculty of Science for the year 1949 50 was held on the 17th November, 1949 Before conducting the routine business, the Faculty unanimously placed on record its deep sense of grief on the sad demise of Dr Birbal Sahni a distinguished Scientist of the Nation and founder of a research Institute of Palalobotany at Lucknow

The recommendations of the Committee of Studies in various subjects held in April 1949, with reference to courses of studies for the examinations of 1952 were duly considered, and recommended for adoption by the Academic Council and the Syndicate

The Faculty made the following recommendations for consideration of the Academic Concil —

(1) On reconsideration, the introduction of Economic Botany as a subject of study for M Sc was dropped

(2) That the degree of D Sc be introduced

(3) There be two papers in English instead of three as at present for the Intermediate (Arts and Science) examination

(4) That option be given to submit thesis in the M Sc (Physics) in lieu of the special paper and one practical

The Faculty adopted the recommendation of the Committee of Studies in Mathematics regarding grants and equipment for the teaching of Mathematics in the affiliated Colleges, and recommended the same for consideration of the Academic Council

The Ordinances and Regulations for the B Ag Degree Examination were adopted and approved by the Academic Council and the Syndicate

The Chancellor's Gold Medal for the year 1949 was awarded at the Second Annual Convocation of the University, held on November 18, 1949, to Mr B D Tikkiwal, who passed his M Sc in Mathematics in 1948 in the first division and secured the highest percentage of marks in I Division among all the candidates of the Science Faculty during the years 1948 and 1949

The teaching Department of the University in Geology has come into existence, and is located at Udaipur Dr K P Rode has taken over charge as the Reader and has already commenced organising the Department With a view to centralising the Geology Deptt at Udaipur, 3rd year Scince class in Geology has also been started at the Maharana Bhupal College, Udaipur, with effect from July 1950 The Geology classes at the Maharaja's College, Jaipur are to be discontinued after the 1951 examination

One Scholarship of Rs 25/- per mensem tenable for two years has been introduced for higher studies in Agriculture after passing the Intermediate Examination in Agriculture

The total number of Colleges affiliated to the University in Science subjects was 14 (including 8 Degree and 6 Intermediate colleges) of which 4 teach up to Post-graduate standard The Chirawa High School, Chirawa, was granted affiliation for the Inter Science standard with effect from July 1950

During the year 3 candidates were allowed to start research work for the Ph D degree of the University in Science subjects

K L VARMA
Dean, Faculty of Science

FACULTY OF COMMERCE

The demand for higher commercial education has been steadily increasing in Rajasthan, the home of wealthy marwari merchants Included in the University are four colleges teaching for the M Com Examination, nine colleges for B Com and thirteen colleges for the Intermediate Examination in Commerce Of these colleges, one secured affiliation for B Com and another for Intermediate in Commerce during the year

The courses of the Agra University and the Ajmer Board are still continuing for the M Com, B Com and Intermediate in Commerce Examinations of this University An *ad hoc committee for reorganising the commerce courses* in this University has met twice, but nothing has so far been done The proposals of the ad hoc committee which met in April, 1950 will be considered by the Faculty of Commerce this year

Candidates for the Intermediate in Commerce Eexamination can now answer the examination papers in Hindi in all subjects except Mathematics, and candidates for the B Com Examination have also been allowed the option of writing their answers in Hindi except in Commercial Law, Statistics and Mathematics

During the year 1 applicant was allowed to start researchwork in commerce subjects for the Ph D Degree

RUP RAM GUPTA
Dean, Faculty of Commerce

FACULTY OF LAW

1 During the year under report, the meeting of the Faculty of Law was held on the 16th November, 1949 The meeting was attended by 11 members representing the the Law College, Jaipur, the Maharana Bhupal College, Udaipur, the Jaswant College, Jodhpur and the Dungar College, Bikaner Eight resolutions relating to various items on the Agenda were passed The Faculty reconsidered the question of holding Supplementary Examinations in Law and revised its previous recommendations in the light of information obtained from other Universities

These recommendations were finally accepted by the Academic Council and the Syndicate of the University and the First Supplementary Examination was held on the 24th August, 1950

The Faculty approved with slight modifications, the schemes drawn up by the Committee of Studies in Law —

(a) for the LL M Degree Examinations, and

(b) for supplicating for the *Degree of Doctor of* Laws (LL D)

These recommendations were also accepted by the Academic Council and the Syndicate of the University

2 The meeting of the Committee of Studies in Law was held on the 14th April, 1950

3 During the year, the Raj Rishi College, Alwar *discontinued the LL B Previous class, as it was decided* by the college authorities to abolish teaching in Law with effect from July 1950

4 *The Committee, appointed by the University to* suggest a scheme for rationing various post graduate studies at different centres under the University, recommended that Law studies be conducted at the following three centres only —

(i) The Law College, Jaipur,

(ii) The Jaswant College Jodhpur, and

(iii) The Maharana Bhupal College, Udaipur

The Academic Council considered this recommendation and resolved that Law studies be centralised at one centre only viz, at the Seat of the High Court

5 The second batch of the LL B Final students appeared at the LL B Degree Examination held in April *last (1950) and out of 266 candidates who appeared at the* Examination 214 were declared sucessful

6 The number of students in the Faculty has been increasing steadily and the demand from the graduates in Law of our University for the institution of LL M (Master of Laws) studies in this University is persistent As none of the constituent Law Colleges has so far sought affiliation for the LL M Degree studies it would be urgent in the interest of the propagation of advanced studies in Law that the University should provide for this pressing need at an early date, particularly as the University has already taken a lead in this direction by granting a sum of Rs 5,000 for the purchase of books for LL M studies

K S HAJELA
Dean, Faculty of Law

FACULTY OF ENGINEERING

1 A meeting of the Faculty of Engineering was held on November 16, 1949, at Jaipur Certain changes in the syllabus recommended by Committee of Studies in Engineering held on 20 4 1949 were approved by the Faculty

2 A meeting of the Committee of Studies was held on 10 4 1950 The Committee recommended Courses of Studies for the Examinations of 1952-1954 A sub committee was appointee to draft a syllabus of courses for the Civil Engineering brach

3 *The Birla College of Engineering, Pilani, made* very good progress during the year The new buildings were nearing completion, and lecture and drawing classes were conducted in the new building The laboratory construction made good progress, and the equipment which is at present installed in temporary buildings will be transferred to the new building in the next year

Pandit Jawaharlal Nehru, Prime Minister of India, visited the College and expresses his appreciation of its progress

The Government of India granted permanent recognition for the B E degrees (Mechanical and Electrical branches) The Institutions of Engineers (India) have recognised the B E degree of the Rajputana for Exemption from part A and B of the A M I E Examination

5 The Results in the Engineering Examinations were very good —

	No of Students appeared	No of students passed I Dn	II Dn	Total	Percentage of passes	No of students entitled to supple or compart exam
B E Final Pt II (Mech)	35	22	13	35	100%	—
B E Final Pt II (Elec)	28	12	16	28	100%	—
B E Final Pt I (Mech)	47			42	89%	3
B E Final Pt I (Elec)	37			36	97%	—
B E Prev Pt I	150	43	77	120	80%	7

6 The first batch of Engineering Graduates have passed out—and are now undergoing 6 months' practical training in different engineering and industrial concerns in the country They will be awarded their B E degrees in the next Convocation in December 1950

7 It is gratifying to note that the Engineering Faculty has made very good progress and it has established high standards of teaching and examination equal to the best of engineering faculties of other Universities in India

V LAXMINARAINAN
Dean, Faculty of Engineering

FACULTY OF MEDICINE

During the year under review the meeting of the Faculty of Medicine was held on 16th and 17th November, 1949 Dr R M Kashwal Principal, Sawai Man Singh Medical College Jaipur who was unanimously elected as Dean of the Faculty, was in chair .

The Faculty recommended to elect the following gentlemen on the Committee of Studies for the vacant seats

(1) Dr R Heilig Offg Professor of Medicine, as a Physician in addition to Dr Kashwal

(2) Dr R K Goyal, Professor of Pathology

(3) Dr R B Arora Professor of Pharmacology

(4) Dr B C Chatterjee Offg Reader in Medical Jurisprudence

The Faculty recommended that Biochemistry Department will function as a part of Physiology Department in so far as teaching of Biochemistry and general administration is concerned, but with regard to research work this department will function as an independent department

The Faculty adopted that candidates who obtain 50% of the maximum marks in the Practical test in either Anatomy or Physiology 40% in the written test and 60% in the written and practical tests taken together may at their option be exempted from appearing in that subject at a subsequent examination But they shall not be declared to have passed the whole examination until they have passed in both the subjects of the examination

The Faculty also ammended the rules and regulations for starting Condensed Courses for M B B S and recommen

ded to replace Article 222 of the University Hand Book with it

The Faculty Considered the recommendations of the Committee of Studies held on 26-4-1949 with reference to courses for the M B B S Examination and resolved that the existing courses be continued, with certain amendments for all examinations of the Faculty leading to M B B S Part II Examination in 1955 With regard other recommendations made by the Committee in Medicine, the Faculty was of opinion that as they would require a good deal of change in the existing syllabus, the same may be again referred to the Committee of Studies in Medicine which will recast the syllabus in the light of the modified courses of Studies

Examinations

Name of Exams	No of Candidates appeared	No of candidates passed	Percentage	Distinctions obtained
1st M B B S Oct '49	19	13	68 4	
1st M B B S April '50	63	39	61 9	2 in Physiology
2nd M B B S April '50	38	32	84 2	

The Faculty resolved that Dr R M Kashwal be elected as one of the two members from within the Faculty as a representative to the Governing body of the Indian Research Fund Association in the vacancy of Dr S C Mehta

Teaching of a new subject of Pharmacy of B Pharm & I Pharm has now come into existance at

Pilani The Birla College, Pilani, availed of this opportunity in this subject The first batch of students will be appearing for University Examinations in the year 1951

The Sawai Man Singh Medical College, Jaipur, was inspected on 24th & 25th April, 1950, in connection with the recognition of Medical degrees of the University of Rajputana by the following representatives of the Medical Council of India

(1) Lt Col Amir Chand, M B B S (Pb), F R C P (Edin), Principal, Lady Hardinge Medical College, Delhi

(2) Dr Santok Singh Anand, F R C S, Professor of Surgery, Amritsar Medical College

R M Kasliwal,
Dean, Faculty of Medicine

SECTION II

REGISTRAR'S REPORT

1 INTRODUCTORY & GENERAL

The year under review, July 1, 1949 to June 30, 1950 was the third acadamic year of the working of the University of Rajputana

As remarked by the Vice-Chancellor in his obsarvations on the Annual Report of the University for the year 1948-49, the Rajasthan Government forwarded the draft Ordinance remodelling the University Act, 1946 to the University for expression of its views thereon The Syndicate and the Senate considered, during the period under review that draft Ordinance, and forwarded to the Government their views thereon The Rajasthan Government in the meantime, promulgated an amendment to the 1946 University Act, which authorised the Chancellor to extend the term of the members of the University Authorities for a period not exceeding 12 months The Chancellor accordingly was pleased to extend the term of the present members of the various University Bodies up to the end of June 1951 The amendment Act has also since been published by the Government of Rajasthan and it is hoped that, which such fresh elections and nominations as necessary, the newly constituted bodies of the University will be meeting from January 1951

During the course of the year under review the University decided to introduce the Paper 'Diplomacy History and Technique' as an alternative to the Paper on Public Administration, in M A Politics Provisions for post-graduate studies in-Law (LL M) and for Doctorate in Law (LL D)

as a research degree in Law have been made It also decided to introduce D Litt and D Sc degrees for which details are under consideration The Degree of M Ed (Master of Education) has also been introduced There has been only theoretical examination so far for Physiology, Hygiene and Child Study at the Inter stage A practical examination has been introduced to be held in the subject with effect from the examination of 1951

Under the Faculty of Medicine, Pharmaceutical courses have been introduced at the Intermediate and Degree stages I Pharm (Inter in Pharmacy) is a two years' course and B Pharm (Bachelor in Pharmacy) is a three years course Instruction in these courses commenced at the Birla College, Pilani, with effect from July 1950

The University has courses in Mechanical and Electrical Engineering only so far, but steps are now being taken to add Civil Engineering also In keeping with the practice at the other Universities, the course in Engineering has been been made a three years course instead of 4 years—excluding practical training

The courses in 'Education' have so far been linked with the Faculty of Arts It has now been decided to have a separate Faculty of Education Ordinances in this connection were framed and approved by the Syndicate A separate Faculty of Education will be formed next year when the new bodies and authorities will come into being

A new Ordinance has been added so as to permit teachers, Inspecting officers, Librarians and women candidates who already possess a post graduate degree of some other University to appear for the M A or M Com examinations only of this University, in the same subjects

in which they had taken their degree from their original University, in all the papers (of Previous and Final) for that examination in one and the same year, instead of first taking the Previous and then the Final examination

Unlike M A the facility of appearing at the M Com examination in additional papers was not available A candidate after passing the M Com Examination could now appear in additional papers, in which he had not previously passed the examination, in a subsequent year

The facility for appearing at the B A examination in an additional optional subject prescribed for it and not taken by the candidate at the B A, B Sc or B Com examination has been extended to the candidates residing outside the territorial jurisdiction of the University, provided the candidate graduated as a regular student of an affiliated College

Candidates who failed at the M B B S Part I examination in any subject had to appear in all subjects again in order to pass that examination The University has now given a facility that such candidates could re-appear in that subject only in which they failed provided they *obtained a certain minimum percentage of marks*

With a view to help displaced persons the University had given the candidates coming from Sind the option of taking Sindhi as their vernacular up to the High School examination of 1950 This facility has further been extended to the High School Examination of 1951 with a provision that the failures of 1951 could again appear with Sindhi at the High School Examination of 1952

Supplementary examinations in Law have been introduced with effect from this year

The High School students have been given a further facility in as-much as a candidate becomes entitled for the Supplementary examination if he obtains at least 20% marks in the subject he failed in at the main examination, irrespective of the marks obtained by him in the aggregate of the remaining subjects Formerly, a candidate was entitled for the Supplementary High School Examination only if he failed in a subject but obtained 40% marks in the remaining subjects in which he passed The facility now extended is in addition to this provision

The option already given in certain subjects for answering question papers in Hindi at the Inter stage has been extended to the B A examination and B Com examinations to be held in March, 1951

The University has so far been allowing the combination of Law and Post graduate studies with the restriction that a candidate could not appear in one year for his Law final and Post-graduate final examinations in the same year This enabled the candidates to study for the two final examinations together but the spirit being that a candidate should devote his wholetime for one final examination in a year, the Ordinance of the University to this effect has been clarified and amended A candidate could now study and appear in one year for one final examination only

The University, as reported last time, had decided to introduce a revised scheme for the High School Examination with effect from the High School Examination of 1952 Owing to certain difficulties in implementing the same from July 1950, the same will be brought into effect from July 1951, i e with effect from the High School Examination of 1953 The Committees of Courses have recommended

syllabus and text books in all subjects, except in the subjects of General Science and Social Studies, where only courses have been framed but a suitable text book for each will be published by the University itself Authors have been invited to send their Manuscripts for consideration in this connection The one which would be selected will be paid Rs 1000/— and the book will be published by the University

The system of getting advances for T A to Inspectors from Colleges and Schools applying for affiliation and recognition having been done away with the practice of calling a prscribed sum of money as "application money has been introduced in its place

The University sanctioned a non recurring grant for providing facilties to the University office staff for recreation and games

The Senate at its meeting held on November 19 20 1949, approved of the amendments to the Statutes (1) so as to enable the servants employed by the University drawing a salary of less than Rs 33/-p m , for whom the Provident Fund benefits were not exteneded to get a gratuity after approved service, and (2) making the rate of subscription towards Provident Fund by the employees at 8% and contribution by the University at 10% of the salary except that in the case of employees who draw a salary of more than Rs 500/- p m , the University contribution shall be at the rate of 8% instead of 6¼% both ways

Besides the existing scholarships the University sanctioned the award of a scholarships the University sanctioned the award of a scholarship of Rs 25/- p m every year to a candidate for further studies in Agriculture after passing the Inter Examination in Agriculture

13 BUILDINGS

The University offices continued to be located in the same rented building An annexe (small cottage) situated in the premises of the University was also provisonally taken on rent so as to locate the Economics Department This is, however, not enough for the needs of the department and the Government has been moved to allot some accommodation in the building of the Deaf and Dump School, which is situated in the vicinity of the University office buildings

14 LIBRARY

Out of a sum of Rs 20,000/- provided in the budget estimates of 1949 for purchasing books for the Library, a sum of Rs 9597/11/6 was spent on purchasing books for the Library, in various subjects during the year 1949 A sum of Rs 6029/2/3 more has been spent up to 31st July 1950 for purchasing books and periodicals These figures do not include the amount spent by the University Department in Economics It was in April 1950 that the Library took its proper form The University invited Mr R S Parkhi, Librarin, Fergusson College, Poona, to train one of the members of the University staff and to commence the work of classification of books on the colon system Mr Parkhi stayed here for about 2 months Lack of accommodation is still a great handicap in the proper development of the University Library There are at present about 3000 books in the Library

The University had also made a special provision of Rs 5000 - for the purchase of Law books for the use of students preparing for the L L M degree and Rai Bhadur K. S Hajela, Dean of the Faculty of Law, was entrusted with the selection and ordering of suitable books

The University has also participated in the Scheme of UNESCO Book coupons and an allotment of 1000 dollars has been obtained for the purpose. This will enable the University to have books which are foreign publications, and which could otherwise have not been easily procured because of the Dollar exchange difficulties.

VIDYA BHAWAN GOVINDRAM SEKSARIA TEACHERS' COLLEGE, UDAIPUR

1. CONTROL AND MANAGEMENT — The Teachers College is one of the several institutions run by the Vidya Bhawan Society and is governed by the Managing body through its executive committee

2 ENROLMENT — Ever since the College was raised from the C T to the B Ed standard of the University of Rajputana in July 1948 it has been growing in popularity We had 34 candidates last year including two ladies The number this year has gone upto fifty, two of whom again are ladies We hope that next session we shall have about a hundred teachers under training

3 COURSES OF STUDY — While the syllabus prescribed for B Ed examination of the University of Rajputana was generally followed, we tried to modify or add to the purely professional course in two respect —

(a) *Official Syllabus was modified* —
The University Syllabus of practical work in subjects for specialisation either completely ignored all type of practical work, as in the case of English and the mother tongue, or was inadequate as in the case of History, Geography, Science and Mathematics We prepared our own programme of practical work in each subject and carried it out Besides regular lectures to the entire class, we had weekly tutorial periods when students could consult any lecturer, individually or in small groups, about their difficulties As a result of this opportunity for closer contact and serious discussion some students produced quite original dissertations on some aspects of their special subjects

(b) *Social Service Course* —
Whereas in other Training Colleges students go home immediately after their University examination in April we required our students to stay on for a month s Social Service Course from April 6 to May 5 1950 It consisted of two parts —

(i) Lectures on Social, economic, political and cultural problems

(ii) Practical Social Education work in neighbouring villages.

Besides the Teachers College staff and the Headmaster of the Vidya Bhawan High School people of established fame from outside like Dr Jaideo Sharma, Principal S S Saxena Prof S. P. Verma, Shree V G Barpute, Prof M. V Mathur, Dr K G Rama Rao, Shri J C Kumarappa and Shree J V. Thakur kindly participated in our programme of lectures at our invitation

For practical work in villages the trainees were divided into the following five groups of ten members each, named after the nature of their work —

1 Adult Education
2 Recreational Programme in Villages
3 Grow-more food Campaign
4 Village Literary Programme
5. Parental Cooperation

The Adult Education and Village Recreation programme groups concentrated on a neighbouring village named Pulan the Grow-more food Campaign and Village Literary Programme groups worked in several villages like Pulan, Bhuwana, Dewali and Neemuchkhera showing slides and giving talks The Parental Cooperation Group invited the parents of the Vidya Bhawan High School students in small groups on Saturdays for a better understanding and solution of the children's problems

While this short course in Social Service cannot naturally produce tangible results immediately, it has been on the whole quite satisfactory It has aimed at making our teachers under training vitally conscious of our great social problems We can achieve still greater measure of success if the University or the Government officially give due weight and recognition to this aspect of our work A special feature of the Social Service Course has been a three hour test at the end of the course on the subjects of various lectures and the awarding of certificates for good work in villages

4 STAFF — Shri S L Gupta, M A B T, left the College at the end of the last session and his place as a lecturer in Hindi was taken by Shri R S Bhatnagar, M A, B T, Shri P L Pareek was appointed lecturer in History The following members of teaching staff worked during the session under review —

1 Dr K L Shrimali, M A, B T, Ph D, Principal

2 Shri K N Srivastava, M A B T, Lecturer in Geography
3 Shri P L Shrimali, M. Sc, B T, Lecturer in Science.
4 Shri Bhagawan Dayal, M A, B T, Lecturer in English
5 Shri R S Bhatnagar, M A, B Ed,, Lecturer in Hindi
6 Shri P L Pareek, M A, B T Lecturer in History
7 Shri M I Khan, B A D P Physical Director

5. EXAMINATION RESULTS —All the fifty cand dates appeared at the B. Ed Examination of 1950 with the following results —

TOTAL. Rs	49,974/6/6		Rs. 49 974/6/6

7. BUILDING (ADDITIONS OR ALTERATIONS) —The Training College is housed in its own building in which no additions or alterations were made during the session under review.

8 LIBRARY AND READING ROOM —The library is well equipped with books on Education, Psychology, Sociology, Politics and many other subjects 443 new books of the value of Rs 4,007/12/3 were purchased during the session The College subscribes to, or gets in exchange far Jan Shikshan, 54 periodicals and 2 dailies

A special feature of our Library has been the open shelf system which has been very beneficial, indeed Books are also issued to our ex-students in different parts of Rajasthan and to the members of the staff of the different institutions

9. TEACHERS COLLEGE EDUCATION SOCIETY —The stimulate deep thinking and wide reading, the Teachers College Education Society was formed at the beginning of the Session with Shri Bhagwan Dayal, M A, B T

as its first Secretary. Papers on different subjects of Educational, literary, cultural and political interest were read by the members of the college staff and followed by a keen discussion Copies of the different papers are kept for record and can be read by anybody who asks for them. The members of the college staff also contributed articles for a special issue of the Jan-Shikshan.

10 GAMES, SPORTS AND MEDICAL EXAMINATION —Physical training and games were the regular features of the daily life of the students Three students also offered to specialize in Physical Education for whom arrangement for theory and practical classes was made

The College doctor conducted a medical examination of the students prior to their admission Health records of students for the whole year were maintained A dispensary in co operation with the state is run by the Society to give medical help to students

The College Hockey Eleven had the distinction of winning the Rajadhiraj Teacher's Hockey Tournament organised by Fateh High School, Udaipur

In addition to regular team games such as Hockey, Football, Volley ball, Basket ball, the college organised a Volley ball tournament and a sports Meet to give the pupil teachers training in the organisation of games and sports.

11. SCHOLARSHIPS, MEDALS AND CONCESSIONS IN FEES —The college spends Rs 360/- a year on two scholarships of Rs 18/- per month awarded for general proficiency and poverty These were awarded to Shri Niaz Ahmad and Shri Govind Narain Mathur during the session. The Sekasria Trust, Indore awarded a gold medal to Shri Madho Krishna Shukla for standing first in order of merit at the B Ed examination of the University of Rajputana in 1949

One of the two private candidates was exempted from the payment of the capitation fee this year

12 EXTRA CURRICULAR AND SOCIAL ACTIVITIES —(a) The college Union played an important role in organising Social and cultural activities for the benefit of the students Under its auspices Shri Jai Prakash Narain, Shri Prem Narain Mathur and Prof M V. Mathur addressed the college at different times during the session The Union organised an

Inter-School Sports Meet in which almost all the important Schools of Udaipur participated

(b) One special feature of the programme under this head was the organisation of a "Mela" on the 15th of August to celebrate our Independence Day The pupil teachers ran a restaurant in which every item of service from the pitching of tents and cooking to the serving and cleaning of dishes and cups was done by the the students themselves

At the main function in the evening the meeting was addressed by Shri Bhurelal Baya, Prof S P Verma, K L Bordia and others *The Mela was a grand success and brought our students into intimate* contact with the public of Udaipur and gave them an opportunity of Social Service

13 THE HOSTELS —As the College has no hostel buildings of its own, it has to rent residential buildings and convert them into hostels for students Last year there were two hostels under the supervision of two Wardens An additional hostel had to be started because of the increase in our admissions this year All the hostellers, however, dined at one place

14 DISCIPLINE — Excellent discipline was maintained both in the College and in the Hostel Active cooperation between the staff and the students was mainly responsible for the absence of any problem of discipline during the session

15 TEACHERS IN SERVICE SCHEME — Before the formation of the Union of Rajasthan States, our ex students of Mewar State worked under our guidance for two more years after their period of actual training We organised for their benefit weekly discussion groups, monthly lectures and half yearly conferences We also supervised their actual teaching work in their different Schools When the United State of Rajasthan was formed we applied to the Government to extend this scheme to the entire Union The Government are considering our application and as soon as they approve it, our trained teachers of the whole of Rajasthan, specially those who are trained at our College, will further benefit by our regular guidance for two additional years after their training

16 SHORT SUMMER COURSE IN GENERAL SCIENCE AND SOCIAL STUDIES — Under the Rajasthan Government Educational expansion

scheme, the College has undertaken to organise a Summer Course of six weeks for the training of 250 teachers of Rajasthan in the methods of teaching the new subjects of General Science and social studies which have been made compulsory. The members of the College Staff are whole heartedly co operating in this scheme Besides lectures on the subject matter and methods of teaching of these branches of knowledge, a special feature will be a survey and study of the cottage industries of Udaipur District This practical aspect will give a new orientation to the teachers' outlook on social problems

17. GENERAL.— This brief report cannot really give an adequate idea of the achievement of the College. The living proof of the success of the institution is the substantial number of those students who have passed out of this College and are now honestly and conscientiously doing their duty with a new out-look and a reorientated technique. We hope that these teachers will try their best to help and achieve the democratic ideals that are so near our hearts.

8 LIBRARY & READING ROOM — Books worth Rs 1250/- were purchased for class-rooms Library and Hall. Furniture of about Rs 4900/- was prepared We are regularly getting dailies, weeklies, and monthlies in English and Hindi.

Attempts are being made to get more books and instil in students a love of reading, for the sake of pleasure as well as content. There is a quite well equipped reading room, where students go for extra study

at least twice a week.

The college library is divided under High School and College sections.

9. GAMES, SPORTS & MEDICAL INSPECTION OF STUDENTS -Physical Training is compulsory, games for all, Sports for all, Drill, Lathi and indigenous games comprise different items. Mass drill and marching enmass in accompaniment to the police band are very popular

The Medical Officer Sikar, arranges for medical inspection of students and cleanliness inspections are held practically every day.

11. EXTRA-CURRICULAR AND SOCIAL ACTVIITIES —During summer vacations we gave a varied programme in honour of our Chief Minister Pt Hiralal Shastri Just when we met in July, the Grow More Food

Campaign claimed our attention The college hostel compound, the Warden's Lodge, and the Principal's Bunglow were all brought under the plough but as the rains failed just when we needed them most, our out put was meagre. During the Independence Week, which we observed heartily, we planted trees all round the College with seed of prospice' kindly supplied to us by the Jodhpur State Our students attended patients day and night during the Surgical Camp, organised by the *Jamna Lal Bajaj Trust* During the Republic Celebrations we had 'Sutra Yajnya' a variety show, Playlets, Shadowgraphy, etc We rendered other forms of social services at the Railway Station and the local hospital on various occassions throughout the session

We had several Ministers of the Government of Rajasthan including our Education Minister, who not only addressed the staff and the students of *our college but also witnessed the first performance on our* newly erected stage in the evening and sowed some seeds in our compound in the morning They were productive of vegetables which we greatly relished

Sir C V Raman, the Noble Laureate, did visit and addressed us twice Dr G S Mahajani, Vice-Chancellor, Rajputana University, was the last link in the golden chain of our visitors His remarks show that he kindly appreciated our work sufficiently well

All these activities were in addition to our usual run of work, organised under the various associations—Parliament Historical Association, Graduate Circle, Athletic Association, Hostel Club, Dramatic Association, Staff Council etc

12 HOSTELS —The Shri Kalyan College Hostel is attached to the institution. Besides this there are Shri Jat Hostel and the Shri Krishna Chhatravas (for Harijans).

13 *DISCIPLINE —Apart from the fact that the 'surplus' energy* in students, wild and irresponsible, did find expression in a simple act or two of youthfulness, when left deliberately free to itself unchannelized, discipline remained quite satisfactory infact, exemplary on many occasions. Our persistent efforts at 'sublimation' appear to be bearing some fruit.

14. CHIEF CHARACTERISTICS —We are straining every nerve to create a whole-some atmosphere for all round growth of the boys whom

we treat as boys not as Little Man

First, we have written work and effective teaching under supervision and gave encouragement to literary competitions, specially reading room and seminar work for intellectual development, we have sports, games for all, lots of recreation, music, excursions, refreshment, and marching with the police band from the health point of view, and cleaning of grounds, polishing of furniture, laying out of lawns and flower beds, decorations for class-rooms, etc, for the aesthetic side Another feature is that we are also trying to enlist the sympathy of the local workers, old boys and merchants through our magazine, Old Boys Association and Socials by asking them to assist in various functions like debates and sports and inviting them to help us in our welfare work like that managed by our Students Benefit Society which was helped by Seth Sohan Lal Dugar to the extent of Rs 600/- (six hundred)

Our teachers do a lot of work in the class room, when students are left otherwise free, they are employed in establishing personal touch with students, discussing various current and course topics with them or helping them to dig out some information from the library books Out side the class-room, they go out with them for village uplift and Adult Education work as they did go to Khuri, where a teacher stayed with students in the summer vacations, made literate 48 adults, cleaned their lanes and wells, taught them sanitation in a practicable way and entertained them by songs and shows

Four of the teachers went out to carry out an educational survey of the entire Thikana Their laudable work has resulted in a constructive scheme for the betterment of education here

10 SCHOLARSHIPS, STIPENDS, MEDALS AND CONCESSIONS IN FEES — No tuition fees are charged at all There is arrangement for scholarship in the lower sections only.

11 EXTRA CURRICULAR AND SOCIAL ACTIVITIES —From the standpoint of students activities, the year under review may perhaps be regarded as one of the most remark able year in the history of our institution

The College Association held innumberable events in course of the year To name just a few out of many —

(a) Fifth Educational Tour—Educational excursions were formerly an annual feature of our College But these had to be cancelled due to war and its after effects The tour was revived this time after a lapse of a few years A party of about 20 students participated in this excursion held over the main portion of Rajasthan

(b) College Week—The College Week was celebrated with due eclat Competitions in games, sports, debates recitations etc were held in which the staff also participated There were also dramatic performances and a funny night

(c) Championship Volley ball Tournament— Run under the auspices of the Cultural Association of the Institution)—This was the 11th year of this Tournament Quite a large number of teams participated including our own College Team The Trophy was won by the Dungar College team

(d) Social Gatherings—To promote cordial relations between the staff and students a fairly good number of soc al gatherings were held during this year

12 HOSTEL —We have no hostels at present

13 DISCIPLINE —Strongest efforts are made to preserve discipline in the College Occasional lectures are delivered by members of the staff inculcating upon boys the virtues of orderliness and obedience The evils of an indisciplined life are brought home to the students by frequently referring to current events of mob excessee

14 GENERAL —This is a record year of the College judging all round

SHRI RAJENDRA INTERMEDIATE COLLEGE, JHALAWAR

1. HISTORY —The present Intermediate college dates back to the early months of 1946 when the ruling prince of the old State of Jhalawar, Maharaj Rana Harishchandraji, decided to add Intermediate classes to the old Maharaj High School, Brijnagar (Jhalawar State). Later on in the same year the popular Ministry under the guidance of the same prince felt the necessity of providing for the opening of the Science classes in the college and set apart a fund of Rupees one lakh ear-marked for the addition and alteration to the college building and equipment of the laboratories Consequently Intermediate Arts classes were started in July 1946 and Intermediate Science classes in July 1948 though actual teaching could not start before January 1949. Maharaj Rana Harishchandra Ji s action raising the status of the old High School with *sufficient provision for equipment and alterations and additions to the* building was meant to realise in part the dream of his grand father, Maharaj Rana Bhawani Singhji, to have a degree college at the capital town of his State so as to make it a real cultural centre.

2 CONTROL AND MANAGEMENT —Since the disappearance of the States, the control and management of this college has rested as it does at present, with the Government of Rajasthan excercised through the Director of Education. Throughout its History the institution has been a State Instituition in every sense of the term

3 ENROLMENT —The enrolment of students class-wise during the last academic year is given in the following table —

Classes	No of students	Male	Female
XII Arts	6	5	1
XII Sc	6	6	—
XI Arts.	5	5	—
XI Sc	7	7	—
X	79	79	—
IX	59	58	1
VIII	59	59	—
Total	221	219	2

The number of students on roll remained almost the same as before, though Class VII shifted to Malsadar Middle School, Jhalawar.

4 COURSES OF STUDY —In the Intermediate Arts side the college provides instruction in English, Hindi, History, Civics, Economics, Geography and Mathematics and all possible combinations are allowed while on the Science side the college has classes only in English Physics, Chemistry and Mathematics. Students are however allowed to take Geography or Economics in place of Mathematics

In the High School classes it provides instruction in five optional subjects— viz, Science, Commerce, Sanskrit, Persian and Drawing, History and Geography both are taught and allowed. Hindi and Urdu are the only Modern Indian Languages offered to the choice of students.

5 STAFF —The staff in the last year consisted of a sufficient number of competent teachers as shown department wise -

(i) *English* —Messrs. S D. Jagdhari, L.L Sharma, S. K. Kothari, Badri Singh and G Bhatt.

(ii) *Arts* — Messrs R.B. Lal, P.N Saxena and M L. Sharma

(iii) *Science*—Messrs P.N. Langer, P B Varma, T N. Adalti and B C. Jain.

(iv) *Oriental Languages*—Messrs. B. L Nigam, M M Mathur, G R. Sharma and A S Beg.

(v) *Physical Instruction*— Mr. T S Parmar.

There were two part time teachers also on the staff

(i) Capt Dr P. N. Bhatia for Anatomy, Physiology of the Human Body and Hygiene

(ii) Mr. M. M. Jain for Commerce

6 EXAMINATION RESULTS —

Name of Examination.	No of candidates appeared	No passed in division I	II	III	Total	Percentage.	Distinction.
H S	70	2	16	27	45	67%	4 in Math 1 in Eng.
Inter. Arts	6	—	1	2	3	50%	
Inter Sc.	6	—	—	3	3	50%	

7. FINANCES—The institution is State owned and controlled and depends for all its income on the Government of Rajasthan and is accountable to it for its expenditure In the last year the grants amounted to Rs. 47,605/— and the expenses to Rs 78 607/—. Part of this expenditure was met from the fund of Rs one lakh which the old Govt. of Jhalawar had deposited in a local Bank to the credit of the college and partly it was met from the budget of the Inspectorate of Kotah.

8 BUILDINGS—No additions & alterations could be made to the building though they were badly wanted Plans and estimates however are ready and is hoped that various departments concerned will soon expedite procedure and construction will start this year i.e 1950 51

9 LIBRARY & READING ROOM—The College has a separate splendid building for the library with a spacious reading room in the centre of the building It is a princely gift to the college by a prince. It has 24677 volumes and last year 7069 volumes were added. The number of newspapers subscribed was only one while the periodicals were nil The total amount spent on the purchase of books, newspapers and periodicals was Rs 500/—.

Upto the last session the library was subject to triple control-(i) Inspector of Schools, Kotah Division, Kotah (ii) The Principal of the College and (iii) The Supervisor of Gardens, Jhalawar However during the year it passed into the hands of the Principal

10 GAMES, SPORTS AND MEDICAL INSPECTION OF STUDENTS — It is rather sad to mention that the college had only a very poor organisation for Games & Sports, not because the Govt refused to give sufficient grants but because there were and are no proper playgrounds no hostel and because the Games & Physical Instructor was sent on deputation to Y. M C A College of Physical Education, Madras, to get himself properly qualified for his job Perhaps it was due to these drawbacks that the students also failed to show sufficient enthusiasm and take keen interest in games There is no provision for Medical Examination of students, many of whom keep poor health and suffer in ignorance of disease

11 SCHOLARSHIPS, STIPENDS, MEDALS & CONCESSIONS IN FEES - There is no regular system of scholarships Government or private obtaining in the college A few students, however, held Govt scholarships

on account of their having secured high position in the Departmental or High School Examinations.

There are no medals or prizes so far awarded to students. Education is free upto High School section For the Inter. classes tuition fee is charged at usual Govt rate There are no restrictions of any kind on admission put by the Govt except those imposed by the University.

12 EXTRA CURRICULAR AND SOCIAL ACTIVITIES —There were marked extra curricular & social activities during the year under report. The college union existing so far in name was revived and given a constitution by the elected representatives of students. Under the auspicious of the Union several debates were arranged, two dramatic performances were held and three processions were organised to make 15th August, Jawahar Lal Nehru's birthday and inauguration of the Republic day on 26th January 1950 The Games Committee gave a good account of itself It defeated Jhalawar selected team twice in two cricket matches, captured most of the trophies and prizes for games and sports organised on 15th August and 26th January, and took a prominent part in the divisional Tournament at Kotah. The college Scouts and Red Cross Association maintained its usual tradition of service and help to the visitors at the two fairs held at Jhalrapatan this year. This year the college Scouts put themselves as night guards at the fair and restored to their owners stray or stolen cattle

13 HOSTEL —There is no hostel, though the number of students from the district rose to be 60.

14 DISCIPLINE —There is nothing to speak of in particular on this point There was a system of class monitors who were expected to keep themselves in touch with their class fellows. But most of the teachers who are local people are very vigilant in this respect They voluntarily trace out offenders and bring them to a sense of their duty by moral chastisement rather than fine on their parents. A prefects Committee was organised during the year to develop among the students a sense of their own responsibility for their discipline All minor and major cases of breach of discipline and quarrels or fights were referred to this Committee for settlement and punishment. This Committee behaved satisfactorily Its advice was always found reasonable and acceptable even in very grave cases

15 GENERAL —The college remained as before provisionally affiliated to the University for Inter Examination in Arts and Science It was inspected this year by the University for permanent recognition in Commerce for the High School section but the University gave it only an extension of affiliation for two years
